▪Friday the 13th: Return to Camp Blood (1998)
▪Halloween: October 31st (1999)
▪A Nightmare on Elm Street: Son of a Hundred Maniacs (1999)
▪Candyman: Be My Victim (2006)

I was a 15 year old kid when I first created these fan games. They were originally made in Klik & Play. A program that required little to no programming knowledge, which was perfect because I had no clue how to program a game.. only knew how to let my imagination go wild with ideas. Fast forward to present times and I finally learned how to program for the NES. So in 2022 & 2023 I demade all 4 of my slasher games as NES roms. It was a great time revisiting all of them and in turn it helped further my understanding in the 6502 assembly language.

Thank you to everybody that has played these games throughout the years and would message me retelling about the times they spent on each of them. I love hearing from all of you. It takes me back to that special time when the internet felt like a much smaller space.

These games are not to be sold.
They are for promotional use only.

Windows 98 versions: 5kids2feed.itch.io

NES demakes: 8bitslasher.itch.io
