

The Ocean

The Ocean/The Ocean

Killing me  
Dragging me  
Pulling me  
Dragging me

Open up your eyes  
feel me/see me  
Open up your eyes  
feel love, feel it now  
There's no other live  
That has this this feeling  
Open up inside  
Feel love/I feel love

The Ocean/The Ocean

Killing me  
Dragging me  
Pulling me  
Dragging me

Open up your eyes  
feel like, the feeling  
Open your eyes  
feel love, and see me  
There is no other life  
That has this, this feeling  
Open up inside, fear is gone  
fear is gone

The Ocean/The Ocean

Fear yourself  
Don't drag yourself  
Don't hurt yourself  
And be yourself

Everyone's got my stomach

You want it too much  
Got all my stuff  
I shouldn't fight I know  
Can't turn it off

I am that knife that twists in your side and I'll bend when I feel like you want to give in

You want too much  
Time is stuck  
In another life  
I wouldn't fight

I have a knife that cuts at my side and it bends just when I feel like giving in  
No one said it would be easy to get out of bed this begins just when you want it to end

Titanic The Sequel

I Won't Let You Die Again

Illusion is real in my mind  
I still hear your sound in the sky

Yeah yeah yeah  
I won't let you die again

Cause I'll hear you  
And I'll see you  
it's not over  
In a moment

Illusion is real in my mind  
I won't let go again  
Yeah yeah yeah  
yeah yeah  
I won't let you die again  
Cause I'll hear you  
And I'll see you  
It's not over  
In a moment  
Cause I'll break through  
Cause I'll come through  
You're not over  
In a moment

The Mountain

I'm gonna climb the mountain today  
Gonna feel God's breath on my face  
and I know, know I don't know  
Unless I go up

I don't feel like coming back  
to the picture show  
When your on your own  
Then you know

I gonna climb the mountain today  
Gonna feel the sun on my face  
Cause I know, know I don't know  
Unless I go up

I don't feel like coming back  
I don't feel like I'm coming back  
to the picture show  
When your on your own  
Then you know

I'm gonna climb the mountain to

Mountain After Mountain

How Far Do You Want To Go

How far you want to go  
How far you wanna go  
Tonight I want to know  
Tonight I want to know

And we'll feel it once again  
In a place we've never been  
Where the light has just began  
If the night will let us in

A world that doesn't know  
You really want to know

And you'll feel it once again  
In a place we've never been  
Where the light meets its end  
Will the night let us in

How far you want to go  
I never want to know

A Wave Of Pure Heat

From A Great Height

I can see so far all the way  
I run from nowhere everyday

Who gonna be good for you oh look away  
Who gonna hold your hand in its final place  
Who gonna shout it out I want you to stay  
Who gonna love you now from a higher place

I can see far crashing waves  
I run from nowhere these days

Who gonna be good for you oh look away  
Who gonna hold your hand in its final place  
Who gonna shout it out I want you to stay  
Who gonna love you now from a higher place

Eaters Of The Sun

Gonna feel it cause it's you  
Who will see it, few  
Just to be there with you  
No one makes it with you

Soon enough be with you I love life I wanna do it again  
Sun  
Soon

Go and seek her if you choose  
Can you take it when you lose  
You should make it, something new  
That's the only way, she'll look at you

Sun  
Soon

A Mainline of Pure And Total Acceptance

Top Gun 2

We have something good  
I wish we wouldn't lose  
If we only knew  
If we only knew  
We have something good  
Let's dedicate this tomb

My Body Can't Stop

Visions that come/visions that come  
Turn them on/turn them off  
My body can't stop  
My body can't stop

Still I rise in the early morning  
Still I ride in to the burning forest  
Though I know there's not enough for us  
This is what I can offer up to you

Visions that come  
A body can't stop  
My body can't stop

Still I rise in the early morning  
Still I ride in the burning forest  
I know I won't find enough for you  
This is still the best that I can do

You follow a path  
That won't lead you back  
There is no silence  
Deep inside us

My body can't stop
